- Overhead crane inspection / repair
- Lifting devices inspection / repair
- Winches and hoist repair
- Control system upgrades – wireless
- Lift studies and planning
- Mechanical handling engineering
- Certified crane operators
- Certified riggers
- Replacement cranes
- Temporary modular cranes
- Rigging lofts.

HYDRAULIC SYSTEMS

We have extensive experience with fluid power systems and engineering expertise in all disciplines, providing the in-house capability to project manage and carry out design, manufacture, inspection, troubleshooting and repair of your hydraulic components.

Having built working relationships with major hydraulic OEMs, Sparrows is a certified Dana / Brevini, Braden, and SKF Lincoln authorized service center. Along with being a preferred Linde partner, we can offer services as follows:

- Hydraulic system flushing, fluid filtering, system monitoring and analysis
- Troubleshooting and repair
- Hose integrity management
- Hydraulic pump and motor repair
- Cylinder refurbishment
- Hydraulic valve rebuilding.

INSPECTION

Regular examinations by qualified inspectors are essential to ensure that you maximize safety and integrity and ensure the reliability of safety critical equipment. From one-man jobs to full scale periodic structural inspections, we ensure you have confidence in the reliability of your equipment:

- Lifting gear inspection – ABS accredited
- DROPS survey and rectification – ABS Accredited
- Loose lifting gear inspection
- Fixed lifting gear inspection
- Structure inspection
- NDT– MPI, UT, DP, Eddy current, e-mag, PMI
- Engineer evaluation and certification of lifting devices & fixed points
- Online database for inspection certificates, DROPS and HIM
- Rope access.
