

SPARROWS

TRAINING

LIFTING SUPERVISOR / DECK FOREMAN TRAINING

The lifting supervisor training programme is designed to provide delegates involved in lifting operations with clear knowledge and understanding of relevant legal and practical requirements to develop the various lifting plans and risk assessments to ensure and execute lifting operations in a safe and controlled manner.

Delivered by our experienced instructors, our training programmes ensure that safety critical lifting training is available around the globe at the highest standards.

WHO SHOULD ATTEND?

The course is designed for those responsible for the safe and efficient operation of lifting equipment and operations on onshore, offshore, or marine vessels. The course is useful for those who oversee lifting operations and manage lifting equipment and personnel, and it is relevant for riggers,

crane operators, and others involved in lifting operations who require a comprehensive understanding of the risks and best practices involved in these activities.

WHAT ARE THE PREREQUISITES TO ATTEND?

Candidates should have some prior experience in lifting operations, such as rigging, crane operations, or other relevant roles. They should have a basic understanding of lifting equipment and their components, such as slings, shackles, hooks and cranes, as well as having completed relevant safety training.

Candidates should have good communication skills to complete lifting operations safely.

WHAT IS THE DURATION OF THIS COURSE?

Four days.

Continued overleaf...

WHAT ARE THE AIMS OF THE COURSE?

To provide delegates with a better knowledge and understanding of legal responsibilities and practicalities required to develop lifting plans and risk assessments to ensure safe and controlled lifting operations.

WHAT WILL BE COVERED?

Delegates will be assessed in a mix of theoretical and practical elements. Practical exercises will be assessed on an ongoing basis and a theoretical exam is conducted at the end of the course. The key areas of focus include:

- Health and safety legislation
- Duties and responsibilities
- Offshore crane types and components
- Risk assessment
- Slinging and signalling
- Lift plan contents.

WHAT CERTIFICATE DO ATTENDEES RECEIVE ON COMPLETION OF THIS ASSESSMENT?

An Altrad Sparrows lifting supervisor / deck foreman certificate will be awarded to the candidate on successful completion of all practical and theoretical elements. The certificate is valid for two years.

Developing competence and reducing risk

Having worked in the offshore industry since 1975, Altrad Sparrows has unrivalled experience in offshore lifting operations, competence assessment and training. Our goal is to help build a strong safety culture in the workforce, reducing the frequency and severity of incidents which could cause harm to people or property.

We are the only company in the world to offer onshore coaching in a real offshore pedestal crane and a crane simulator.

Delivered by our experts who are all staff and have hands-on experience in their fields, our programmes ensure students reach Altrad Sparrows' industry-leading standards. Training programmes are accredited to ISO:9001, OPITO and BFPA in the UK and API RP2D in the US.

As well as offering a number of standard courses, unlike many other training providers, we offer bespoke training solutions that meet our clients exact objectives. We can deliver our training at your location, both offshore and onshore.
