OPITO RIGGER COMPETENCE ASSESSMENT

The OPITO rigger competence assessment is the next step to becoming a fully competent rigger for those who have already completed initial training and supervised workplace experience.

With 45 years' experience as a technical authority in crane and lifting operations, our training ensures people are developed for safety critical lifting roles at the highest standards.

WHO SHOULD ATTEND?

The rigger competence assessment is for personnel who want to become OPITO certified competent riggers.

WHAT IS THE DURATION OF THIS ASSESSMENT?

One day.

WHAT ARE THE PREREQUISITES FOR THIS ASSESSMENT?

All learners must hold a valid and in-date OPITO rigger initial training certificate and have a fully completed workplace experience logbook to meet the OPITO rigger requirements.

If a learner does not hold valid certification a formal letter from their employer may be submitted stating that they have met the equivalent of the OPITO rigger logbook requirements.

WHAT ARE THE AIMS OF THIS ASSESSMENT?

To establish that the learner has the required underpinning knowledge, understanding and practical skills to fulfil the role of rigger safely, effectively and competently.

WHAT WILL BE COVERED?

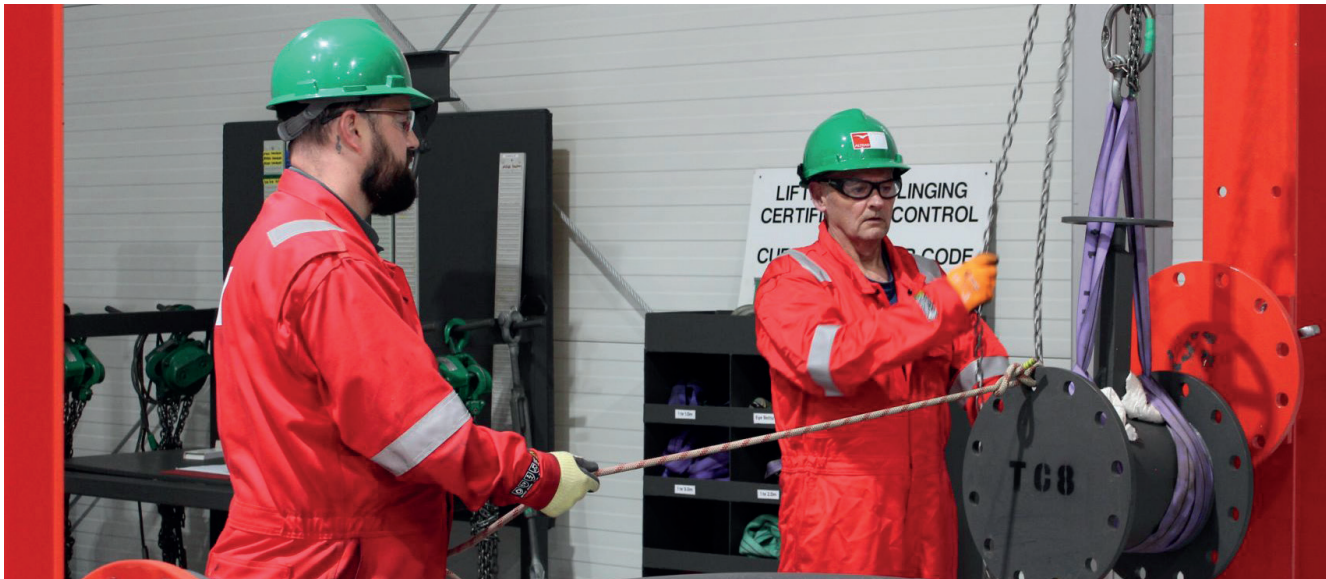

The assessment consists of a mix of ongoing theoretical and practical elements designed to give learners the opportunity to demonstrate their knowledge, understanding and skills in the following areas:

- Effective and safe lifting techniques
- Hazard identification and risk mitigation
- Production of lifting plans
- Effective communication with rigging team
- Lifting equipment – storage and inspections
- Health and safety legislation and associated regulations
- Post-lift procedures.

WHAT CERTIFICATE DO ATTENDEES RECEIVE ON COMPLETION OF THIS ASSESSMENT?

OPITO accredited rigger competence assessment certificate is awarded on successful completion of both the knowledge and practical assessments.

The certification is valid for two years. Before the certificate expires, learners must complete the OPITO competence reassessment to remain certified.

OPITO

OPITO has been setting standards for the oil and gas industry since 1991 to help improve workforce safety and competence – over 350,000 people per year train to OPITO Standards across the globe.

Producing world-class, industry-driven standards that are recognised globally, OPITO undertakes robust approval and monitoring processes to ensure that approved training providers deliver a consistently high level of training in compliance with the standards.
