TRAINING

# SPARROWS OFFSHORE CRANE OPERATOR STAGE 2 TRAINING AND ASSESSMENT

When we develop your people you can be assured of their competence to carry out the safety critical role of offshore crane operator to Sparrows exacting and industry-leading Offshore Crane Operator Standard.

## WHO SHOULD ATTEND?

Personnel who have completed the offshore crane operator stage 1 or equivalent standard or personnel who hold verifiable evidence to demonstrate that they have been operating cranes e.g. mobile cranes / tower cranes.

## WHAT ARE THE PRE-REQUISITES OF THIS TRAINING?

Candidates are required to provide evidence of their existing qualification or experience which is to be verified before undertaking the stage 2 course.

## WHAT IS THE DURATION OF THIS TRAINING AND ASSESSMENT?

This is a three-day programme incorporating theoretical and practical elements with a practical assessment and theoretical examination on the final day.

## WHAT ARE THE AIMS OF THE COURSE?

The Sparrows Offshore Crane Operator Stage 2 assessment verifies that individuals have the ability to consistently, independently and safely perform this safety critical role. The course covers advanced knowledge and demonstration of operating ability. Successful completion enables delegates to carry out deck lifts unsupervised.

Continued overleaf...

## Developing competence and reducing risk

Having worked in the offshore industry since 1975, Altrad Sparrows has unrivalled experience in offshore lifting operations, competence assessment and training. Our goal is to help build a strong safety culture in the workforce, reducing the frequency and severity of incidents which could cause harm to people or property.

We are the only company in the world to offer onshore coaching in a real offshore pedestal crane and a crane simulator.

Delivered by our experts who are all staff and have hands-on experience in their fields, our programmes ensure students reach Altrad Sparrows' industry-leading standards. Training programmes are accredited to ISO:9001, OPITO and BFPA in the UK and API RP2D in the US.

As well as offering a number of standard courses, unlike many other training providers, we offer bespoke training solutions that meet our clients exact objectives. We can deliver our training at your location, both offshore and onshore.
